

Dobroyd Point Public School Vision Statement

Dobroyd Point Public School is part of an inclusive, warm and welcoming school community. The school enjoys a friendly nurturing culture where every student is valued and their learning is supported by strategic teaching and learning programs. The school empowers all students to embrace learning, achieve their personal best and develop academically, socially, emotionally, physically and creatively to their full potential.

The community has a strong sense of involvement, strongly supported by an active P&C who raise substantial funds to support programs and purchase resources for school initiatives. The school and its community have high expectations of students and value the provision of a variety of learning opportunities, including the Italian language program, library program, music program and learning and support programs.

Our vision for the next three years is that Dobroyd Point Public School will provide rigorous teaching and learning opportunities that are future focused, challenging and incorporate authentic learning opportunities.

In order to achieve our vision the school will:

- Ensure all students receive high quality, engaging, teaching and learning activities with a strong focus on the development of exceptional literacy and numeracy skills.
- Provide explicit teaching and learning activities that incorporate a range of innovative teaching practices and technology to encourage critical and creative thinking, problem solving and collaboration.
- Develop a positive approach to mental health and the skills to become resilient, responsible and confident individuals, capable of becoming successful learners who have a sense of hope and can adapt in a rapidly changing world.
- Provide students with a stimulating and challenging creative and performing arts program which includes opportunities for students to develop their creativity, cultivate performance skills and provide opportunities to compete in competitions and improve their confidence.
- Improve students' physical fitness through challenging sporting activities that develop movement skills, sportsmanship and fair play.
- Cultivate an understanding of environmental sustainability and an appreciation for healthy, ecological practices.
- Promote learning partnerships with parents and caregivers and community involvement and opportunities for students to engage with members of our local and extended community to encourage the development of social values enabling them to contribute to their family, school and the wider community with confidence and optimism.
