

LET IT PLAY

Feat Variation on 'Canon in D' by Johann Pachelbel

**John Foreman, Stella Kelly, Jay Laga'aia, Tom Meadows,
Bonnie Staude and Breanna Truscott**

VERSE 1

Can't sit still
Foot starts tapping
Now a million hands are clapping
When the music starts it feels like home
Across the lands
Our hearts are singing
Join with me there's music ringing
And the voices echo through the years

PRE-CHORUS

So let it play play play your way
Chase the blues away

CHORUS

With music all around
And the melody that we found
Surround yourself with sound
Nobody can bring us down
With music all around

VERSE 2

Let it out
And find your song
Be yourself you can't go wrong
Just believe that you can find your way
'Cause life's a journey
Keep on running
Tomorrow there'll be sunshine coming
Feel the beat inside you on and on

PRE-CHORUS

So let it play play play your way
Chase the blues away

CHORUS

With music all around
And the melody that we found
Surround yourself with sound
Nobody can bring us down
With music all around

DOUBLE CHORUS

With music all around
And the melody that we found
Surround yourself with sound
Nobody can bring us down -

With music all around
And the melody that we found
Surround yourself with sound
Nobody can bring us down
With music all around
